# TMEA VIRTUAL AUDITION PROCESS

## PURPOSE

The TMEA audition process is designed to develop skills, create meaningful musical experiences, and provide recognition for Texas student musicians. To qualify for a TMEA ensemble, students must hone the skills of goal setting, self-evaluation, determination, and musical sensitivity. The Region and All-State experience provides recognition and an outstanding musical experience for those who best demonstrate these skills through their performance.

## VIRTUAL AUDITION OVERVIEW

4. Students will have a designated submission period to record an audio performance of the prescribed audition material utilizing the MusicFirst platform.
  - a. Students will record live directly to the MusicFirst platform. No pre-recording is allowed. *(revised August 23, 2020)*
  - b. Students may use the device's onboard microphone, or a plug-in microphone (stereo mini-jack or USB) provided no audio processing device of any kind is placed between the microphone and the computer. A USB connection device may be utilized provided it does not enhance, engineer, edit, or tamper in any way with the performance during the recording. *(revised August 23, 2020)*
  - c. Students will be able to attempt as many recordings as they wish during the submission period.
  - d. Any subsequent recording attempt will overwrite the previous--there is no option to select from multiple recordings.
  - e. The recordings must be "**Submitted**" before 11:59 pm on the submission deadline date.
    - i. *See Virtual Audition Calendar below.*
